SUMMARY

Software engineer and brand designer who takes a client from logo to launch: brand identity, interface and a fast, production-ready website. Has delivered multiple client websites and 20+ complete brand identities for businesses and organisations across industries, each built to be consistent, credible and easy to manage after handover. Works in Figma and Illustrator as comfortably as in HTML, CSS, JavaScript and PHP, so what is designed is what ships, and can adds photography and video editing to every brand. Praised by clients for fast, high-quality delivery.

EXPERIENCE

Grey Creatives Studio (Web & Branding Studio) July 2026 – Present

Developer & Lead Designer

- Lead client projects end to end, from brief and UI design through development, launch and revision rounds, delivering websites for IntelPRO Solutions, YA Foundation, Three Strands Health & Wellness, Shayan Private Equity and Zavron Group.
- Build custom features beyond static pages: a PHP and SQLite learning platform with Google sign-in and an admin dashboard, an email breach checker, an investment returns calculator, and news and job feeds that update themselves.
- Set the studio's standards for responsive multi-page layouts, light and dark themes and page speed, and handle domain, hosting, email and Search Console setup so every site launches ready to be found.

Grey Creatives Designs January 2024 – June 2026

Brand Designer | Portfolio - greycreativesdesign.vercel.app

- Developed 20+ complete brand identities, from logo suites and colour and typography systems to brand guideline documents and ready-to-use templates, applied consistently across print, signage, social media and web.
- Designed the branded templates and collateral that keep a business consistent as it grows: letterheads, business cards, sticker labels, signage and social media post templates.
- Delivered identities for Shayan Private Equity, Zavron Group (Zavia Apparel and Zuria Cosmetics), Three Strands Health & Wellness, Abiola Farms, Relief Motion Physiotherapy and Dealer Global Auto.

Freelance, Lagos Nigeria January 2024 – June 2026

Photographer, Designer & Web Developer

- Design and develop websites for independent clients, managing brief, feedback rounds and handover directly with each one.
- Shoot and edit studio, product, event and brand photography, and cut promotional videos in CapCut.

PROJECTS

YA Foundation: website & learning platform yafoundationglobal.org

Lead Developer & Designer · HTML, CSS, JavaScript, PHP, SQLite, Google OAuth, REST APIs

- Built a multi-page light and dark site for the Yemi Ademiluyi Foundation with programmes, events and team pages, a free data-breach checker and a 100 AI Tools directory.
- Added a learning platform: student accounts with Google sign-in, three free courses (AI, Cyber Security, Data Privacy), an aptitude test, self-service certificates and an admin dashboard.

IntelPRO Solutions: cybersecurity company website intelproglobal.com

Developer & Designer · HTML, CSS, JavaScript, REST APIs, SEO

- Designed a multi-page corporate site in the client's brand colours, with services, leadership profiles, certification credentials, a jobs board and a cyber news hub.
- Built an on-site email breach checker, a news feed that curates and credits stories from their original sources, and job listings that update themselves and drop closed roles.

Shayan Private Equity: investment platform & brand identity shayanequity.com

Web & Brand Designer · Figma, Illustrator, HTML, CSS, JavaScript, REST APIs, Supabase

- Designed and built the website for an investment and wealth-management firm: investment plans, a returns calculator, a multi-currency view (NGN, USD, GBP, EUR), a live market overview, training and loans pages, a chat assistant, and login and sign-up screens.
- Created the full brand identity: logo, colour and typography system, brand guidelines, and templates for social media, presentations and investor communications.

Three Strands Health & Wellness: website & brand identity 3strandshealthnp.com

Web & Brand Designer · Illustrator, Photoshop, HTML, CSS, JavaScript

- Designed and built the website for a psychiatric and family nurse practice.
- Developed the complete identity: logo, brand guidelines, signage, print stationery and social media templates, applied consistently across every patient touchpoint.

Zavron Group: trade & distribution website and brand architecture zavrongroup.com

Web & Brand Designer · Figma, Illustrator, HTML, CSS, JavaScript

- Designed and built the website for a pan-African trade and distribution company, with its services, two consumer brands, offices in Lagos, Accra and Kigali, and a partnership request form with a confirmation flow.
- Built the brand system behind the group and its two brands, Zavia Apparel and Zuria Cosmetics: logos, colour and type palettes, brand guidelines and social media templates that make them read as one family.

Abiola Farms & Relief Motion: brand identity systems Case study on Behance

Brand Designer · Adobe Illustrator, Photoshop, CorelDRAW

- Abiola Farms: built a full identity system, with logo suite, colour and typography, letterhead, business card, farm-stand signage and sticker labels as one cohesive set, published as a Behance case study.
- Relief Motion Physiotherapy: developed the logo and brand system with ready-to-use templates for a physiotherapy practice.
